

Give your business an Edge

Edge has a proprietary database of over 60,000 medical sales candidates within respective specialties. In addition, through our association with US-Recruiters, we maintain a network of over 400 of the best recruiting firms nationwide to service your company's specific hiring needs. We are also networked with over 300 recruiting firms who work exclusively in the medical and pharmaceutical sales and marketing arena. (www.us-recruiters.com)

Edge is a nationwide contingency-based search firm. Our searches are primarily in the BioTech, Medical, Pharmaceutical, and Consumer markets specifically focused on retaining the best sales and marketing talent for our clients. The candidates we place are the life blood of your organization and represent future prosperity from today and beyond.

Edge conducts local, regional, and national searches based on your specific needs. We are networked to a point where we can fill one assignment or work with our clients in a national expansion where 100 openings need to fill in a short period of time. We identify, screen and evaluate individuals for you. An average search consists of over 125 calls to prospective candidates. This enables us to present you with the best-qualified personnel and ensures an exact match.

Matching the right individual with the right organization is one of the most important business decisions made by either party. To be successful, it takes a thorough understanding of the business needs and culture and a complete analysis of candidate background, experience, and personality fit. We take great pride in being able to bring these elements together in a successful and long lasting placement.
